Company balance sheet
Note

Please note that the balance sheet shown differs from the published balance sheet as it has been transferred into a structural balance sheet (analytical balance sheet) for evaluation purposes. The reason for this is that, from an analytical point of view, the options provided by law and the lawful accounting measures used by the company do not reflect the actual success of the period in the business sense and thus do not adequately portray the actual net assets, financial position and earnings of the company. For this reason certain balance sheet items are split, reclassified or regrouped.
